

Case Study

YO! Sushi, Edinburgh Airport

Client: YO! Sushi
Location: Edinburgh
International Airport
Value: £100,000
Timescale: 19 days

Challenge

Pacific had to refurbish to an extremely tight deadline a hugely popular YO! Sushi conveyor belt Japanese diner. The restaurant was about seven years old and was in need of a refresh.

Approach

Liaison with partner agencies was key as Pacific drew on their vast experience of delivering to deadline and to budget in security-sensitive and high-traffic areas such as airports. In just 19 days, the hugely popular airside restaurant underwent a refurbishment that involved:

- New lighting
- New kitchen
- Flooring
- Graphics
- Tables and seating
- Installation of YO! To Go takeaway display units
- New bar counter
- New conveyor belt
- Fixes to plumbing, electrical, lighting and audio-visual systems

Results

YO! Sushi has now reopened to the public and is continuing to enjoy huge volumes of trade from hungry travellers who appreciate a trendy, high-quality, place to eat that is a little bit different from the norm.
