

Case Study

The Robin's Nest, Edinburgh

Client: Mitchell's & Butlers
Location: Gilmerton,
Edinburgh
Value: £250,000
Timescale: Two weeks

Challenge

Pacific had to fit out to an extremely tight deadline a much-loved suburban restaurant and bar for Mitchells Butlers plc, one of the UK's leading operators of pubs and restaurants, whose extensive stable of brand names includes All Bar One, O'Neill's, Browns and Harvester.

The Robin's Nest in Gilmerton, Edinburgh, operates under the "Sizzling" brand and prides itself on serving value-for-money drinks and meals to families and regulars with a "bit of extra sizzle".

Approach

Pacific drew on their vast experience of delivering to deadline and to budget. The project was commenced at the start of November 2018 and was handed over to the clients in the middle of that month – just two weeks later.

The project involved exterior decoration, new signage, lighting, floor coverings, bar remodelling, installation of screens, French polishing, glazing, tiling, ironmongery, WC refurbishments, curtains and blinds and audio system.

Results

The Robin's Nest is now open, serving breakfast, lunch and dinner to hundreds of customers every week, and it continues to be a valued, welcome and traditional addition to the overall experience of Gilmerton itself.
